Unaudited Interim Condensed Notes to Consolidated Financial Statements For the quarters ended June 30, 2013 and 2012

(expressed in Canadian dollars)

1 Nature of operations and going concern

Nature of operations

NSX Silver Inc. (the "Company") was incorporated under the Canada Business Corporations Act on August 9, 2011 as a wholly owned subsidiary of NSGold Corporation ("NSGold"). The common shares of the Company commenced trading on the TSX-Venture Exchange, on March 14, 2012, with the symbol NSY (see note 4). Its principal business activities will be the acquisition, exploration and development of resource properties in Mexico. The Company's registered office is located at 1550 Bedford Highway in Halifax, Nova Scotia.

Going concern

The Corporation's planned principal operations have not commenced, and no revenues have been derived during the period ended December 31, 2012. These consolidated financial statements as at December 31, 2012 have been prepared on the basis of International Financial Reporting Standards applicable to a going concern, which contemplates the realization of assets and the settlement of liabilities and commitments in the normal course of business. There are material uncertainties that may cast significant doubt about the appropriateness of the going concern assumption as the Company had an accumulated deficit of \$0.7 million and has no operations at this time which will generate revenue. In addition to its working capital requirements, the Company must secure sufficient funding to maintain legal title to its resource properties, to fund its exploration and development activities and to fund its general and administrative costs. Accordingly, the Company may need to raise additional financing. Management cannot provide assurance that the Company will ultimately achieve profitable operations, become cash flow positive, or raise additional debt and/or equity capital. These financial statements do not include any adjustments related to the recoverability and classification of assets or the amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern, and these adjustments could be material.

2 Basis of presentation

Statement of compliance

The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") applicable to the preparation of financial statements in accordance with Part I of the Canadian Institute of Chartered Accountants ("CICA") handbook.

The Board of Directors approved the statements for issue on August 23, 2013.

Basis of measurement

These consolidated financial statements have been prepared under the historic cost basis.

2 Basis of presentation (continued)

Use of estimates and judgments

The preparation of the financial statements requires the Company's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. The determination of estimates requires the exercise of judgment based on various assumptions and other factors such as historical experience and current as well as expected economic conditions. Actual results may differ from these estimates.

Recoverability of resource properties

The Company assesses all resource properties at each reporting period date to determine whether any indication of impairment exists. Where an indicator of impairment exists, a formal estimate of the recoverable amount is made, which is considered to be the higher of the fair value less costs to sell and value in use. These assessments require the use of estimates and assumptions such as long-term commodity prices, future capital requirements, exploration potential and operating performance.

Fair value of assets acquired from NSGold Corporation (note 4)

The estimation of the fair value of assets acquired is determined based on the fair value of the assets received from NSGold in return for shares of the Company. The determination of the fair value requires the exercise of judgment based on various assumptions and other factors such as historical experience and current as well as expected economic conditions. In order to estimate the fair value of the assets transferred to the Company, management looked to various factors including the share prices of the Company and NSGold before and after the transaction and the inferred and in situ values of the properties transferred. A \$0.01 difference in the per share value allocated to the Company's shares, issued to NSGold, would impact the fair value of the assets acquired by approximately \$500,000.

3 Significant accounting policies

These financial statements have been prepared using the same policies and methods of computation as the annual consolidated financial statements of the Company for the year ended December 31, 2012. Refer to note 3 of the Company's annual consolidated financial statements for the year ended December 31, 2012 for information on the accounting policies as well as new accounting standards not yet effective.

4 Share subscription agreement with NSGold Corporation, acquisition of shares of Compañía Minera Oso Blanco SA de CV and distribution of the Company's shares

On February 28, 2012, the Company filed a non-offering prospectus with the securities commissions of each of the provinces of Canada, relating to the qualification and distribution of common shares of the Company by NSGold (the former parent company of the Company) to its shareholders by way of distribution in kind. The shareholders of NSGold approved a special resolution reducing NSGold's paid-up capital in connection with the "spin-out" of the shares of the Company to the shareholders of NSGold at a special meeting of the shareholders held on December 22, 2011.

In association with this spin-out and prior to the subscription of common shares of the Company by NSGold, the Company completed the acquisition of the shares of Compañía Minera Oso Blanco SA de CV (CMOB), a wholly owned subsidiary of NSGold, for one million common shares of the Company. The acquisition has been recorded as a purchase of assets which has been recorded based on the fair value of the assets of CMOB. Also, in March 2012, the Company completed a share subscription agreement with NSGold whereby NSGold acquired 44,428,571 common shares of the Company for gross proceeds of \$4,665,000, net of share issue costs of \$243,601.

NSGold then completed the distribution of the common shares of the Company to the NSGold shareholders whereby the shareholders received one share of the Company for each share of NSGold held as of the record date of March 16, 2012. A total of 43,553,767 shares of the Company were distributed to the shareholders of NSGold with the distribution effected by way of a distribution of paid up capital of NSGold. After the distribution, NSGold holds 1,875,804 shares of the Company.

The common shares of the Company commenced trading on the TSX Venture Exchange on March 14, 2012 as a Tier 2 Mining Issuer under the trading symbol NSY.

The net assets of the Company and CMOB on the date of spin-out by NSGold are summarized as follows:

Dios Padre Property Option Agreement

In connection with the purchase by the Company of the shares of CMOB, all of the rights and obligations of NSGold under a Property Option Agreement dated April 9, 2011 (see below) were assigned to the Company, so that the Company thereafter will issue shares and make cash payments to the optionor, as the case may be. The optionor has consented to such assignment.

Under the Property Option Agreement with Minera Pena Blanca S.A. de C.V. (“Minera Pena Blanca”), the Company, through its subsidiary CMOB, has the exclusive right to acquire a 100% undivided interest in three mining concessions in Mexico (Dios Padre, Don Carlos and Alejandro) from the optionor. The Property, including the historic Dios Padre Silver Mine, is located in the Municipality of Yecora, State of Sonora, Mexico, approximately 260 km east of Hermosillo. On April 26, 2013, the Company entered an amending agreement with Minera Pena Blanca to extend the due dates of the remaining cash option payments for the Dios Padre Option Agreement by an additional three years. Under the terms of the amended Property Option Agreement, the Company can acquire this 100% undivided interest by making cash payments totaling US\$6 million and issuing an aggregate of 1,250,000 common shares to the optionor in five equal annual tranches. As at June 30, 2013, cash payments of US\$500,000 have been made and 750,000 shares have been issued to the optionor. In order to acquire a 100% interest, the Company must make the balance of the cash payments in the amount of US\$5,500,000 and issue the remaining 500,000 shares. The dates for the remaining option payments are as follows:

	US\$'000
July 31, 2016	250
January 31, 2017	300
July 31, 2017	300
January 31, 2018	500
July 31, 2018	500
January 31, 2019	3,650

The Company is also required to pay the principal of Minera Pena Blanca an annual consulting fee of US\$125,000 for the three years ending May 2016 subject to the Dios Padre Option Agreement remaining in effect. In the quarter ended June 30, 2013, the Company paid \$20,000 to the principal of Minera Pena Blanca.

c) Options

The Company has adopted a stock option plan for directors, officers, employees and consultants of the Company. During the quarter ended June 30, 2013, the Board of Directors has approved an increase, in the maximum number of shares that may be issued under the stock option plan, from 3 million to 4 million shares. The exercise price of the stock options is determined by the Board of Directors when the options are granted, but cannot be less than the closing price of the Company's shares on the TSX Venture Exchange on the business day immediately preceding the day on which the option is granted. The maximum exercise period of the stock options is ten years.

During the year ended December 31, 2012, the Company granted 1,390,000 stock options with an exercise price of \$0.25. These options vest immediately and expire in ten years. The fair value of these options was estimated using the Black-Scholes pricing model based on a volatility of 130%, risk-free rate of 2% and expected lives of 3 years with no dividend yield. This valuation resulted in total stock-based compensation for the year ended December 31, 2012 of \$261,000 of which \$71,000 was capitalized to mineral properties and \$190,000 was expensed.

During the quarter ended June 30, 2013, the Company granted 1,220,000 stock options with an exercise price of \$0.10. These options vest immediately and expire in ten years. The fair value of these options was estimated using the Black-Scholes pricing model based on a volatility of 160%, risk-free rate of 1.4% and expected lives of 5 years with no dividend yield. This valuation resulted in total stock-based compensation for the quarter ended June 30, 2013 of \$49,000 of which \$11,000 was capitalized to mineral properties and \$38,000 was expensed.

Losses

The Company has Canadian non-capital tax losses of approximately \$226,000 available for carry-forward to reduce future years' taxable income. These non-capital tax losses expire in 2032. The Company also has, Mexican non-capital tax losses of approximately \$120,000 available for carry forward to reduce future years taxable income that expire in 2022. No deferred tax asset has been recognized for these losses as it is not probable that the related deferred tax asset will be realized.

11 Related party transactions

The Company acquired the shares of Compañía Minera Oso Blanco SA de CV from its former parent company, NSGold. The Company also entered a share subscription agreement with NSGold and NSGold distributed these shares of the Company by way of dividend to the shareholders of NS Gold (see note 4).

During the two quarters ended June 30, 2013, the Company incurred legal fees aggregating \$7,285 (two quarters ended June 30, 2012 - \$69,543) from a law firm of which one of the officers is a partner. During the year ended December 31, 2012, the Company incurred legal fees aggregating \$79,872 with this firm of which \$72,439 was recorded to deferred share issue costs and \$7,432 to professional fee expense.

12 Supplemental cash flow information

During the period ended June 30, 2013, the Company incurred expenditures on resource properties of \$16,000 (June 30, 2012 - \$75,000) which were recorded as accounts payable at the end of the quarter. The Company also recorded the issuance of shares pursuant to the acquisition of a resources property in the amount of \$11,250 (quarter ended June 3, 2012 - \$62,500). In the first quarter of 2012 the Company recorded the issuance of shares pursuant to the acquisition of a resource property in the amount of \$1,167,500. These items are non-cash transactions and have been excluded from the statements of cash flows.

13 Financial instruments

Credit risk

The Company manages credit risk by holding its cash with high quality financial institutions in Canada, where management believes the risk of loss to be low.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions. The Company does not have sufficient working capital to carry out all budgeted programs in 2013 and must finance during 2013 to avoid disruption in planned expenditures (see note 1).

(expressed in Canadian dollars)

13 Financial instruments (continued)

Market Risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and commodity and equity prices.

a) Interest rate risk

The Company has no interest-bearing debt and is not exposed to any significant interest rate risk.

b) Foreign currency risk

The Company operates in Mexico, giving rise to foreign currency risk. To limit the Company's exposure to this risk, cash is primarily held with high quality financial institutions in Canada. In the future, based on the timing of the Company's exploration programs, foreign currencies may be purchased in advance of expenditures to lock in favourable rates in line with the Company's budgets, otherwise the Company does not use any form of hedging against fluctuations in foreign exchange.

As at June 30, 2013, the Company held the following financial instruments in foreign currencies:

	June 30, 2013		December 31, 2012	
	US\$	Pesos	US\$	Pesos
Cash	700	25,614	1,373	21,673
Value added tax recoverable	–	214,776	–	222,547
Prepaid and deposits	–	19,587	–	19,587
Accounts payable and accrued liabilities	–	18,144	–	21,595

At June 30, 2013, sensitivity to a plus or minus 10% change in the Mexican Pesos exchange rate would affect net loss and comprehensive loss by approximately \$24,000.

c) Price risk

The Company is not exposed to any direct price risk other than that associated with commodities and how fluctuations impact companies in the mineral exploration and mining industries as the Company has no significant revenues.
