## **Management's Report**

The accompanying consolidated financial statements of **NSX Silver Inc.** are the responsibility of management and have been approved by the Board of Directors. The consolidated financial statements have been prepared by management in accordance with International Financial Reporting Standards ("IFRS"). The consolidated financial statements include certain amounts and assumptions that are based on management's best estimates and have been derived with careful judgment.

In fulfilling its responsibilities, management has developed and maintains a system of internal accounting controls. These controls are designed to provide reasonable assurance that the financial records are reliable for preparation of the consolidated financial statements. The Audit Committee of the Board of Directors reviewed and approved the Company's consolidated financial statements, and recommended their approval by the Board of Directors.

These interim unaudited condensed consolidated financial statements have not been reviewed by the external auditors of the Company.

## **Notes to Unaudited Condensed Interim Consolidated Financial Statements For the quarters ended September 30, 2015 and September 30, 2014**

(expressed in Canadian dollars)

### **1 Nature of operations and going concern**

#### **Nature of operations**

NSX Silver Inc. (the "Company") was incorporated under the Canada Business Corporations Act on August 9, 2011 as a wholly owned subsidiary of NSGold Corporation ("NSGold"). The common shares of the Company commenced trading on the TSX Venture Exchange, on March 14, 2012, with the symbol NSY. Its principal business activities will be the acquisition, exploration and development of resource properties in Mexico.

#### **Going concern**

The Company's planned principal operations have not commenced, and no revenues have been derived during the period ended September 30, 2015 or in year ended December 31, 2014. These consolidated financial statements as at September 30, 2015 and December 31, 2014 have been prepared on the basis of International Financial Reporting Standards ("IFRS") applicable to a going concern, which contemplates the realization of assets and the settlement of liabilities and commitments in the normal course of business. There are material uncertainties that may cast significant doubt about the appropriateness of the going concern assumption, as the Company has an accumulated deficit of \$5.7 million (December 31, 2014 – \$5.7 million) and has no operations at this time which will generate revenue. In addition to its working capital requirements, the Company must secure sufficient funding to maintain legal title to its resource properties, to fund its exploration and development activities and to fund its general and administrative costs. Accordingly, the Company will need to raise additional financing. Management cannot provide assurance that the Company will ultimately achieve profitable operations, become cash flow positive, or raise additional debt and/or equity capital. These consolidated financial statements do not include any adjustments related to the recoverability and classification of assets or the amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern, and these adjustments could be material.

### **2 Basis of presentation**

#### **Statement of compliance**

The Company prepares its unaudited condensed interim financial statements in accordance with Canadian generally accepted accounting principles as set out in the Handbook of the Canadian Institute of Chartered Accountants ("CICA Handbook"), which incorporates International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB").

These unaudited condensed interim consolidated financial statements have been prepared in accordance with the International Accounting Standard 34, Interim Financial Reporting ("IAS 34"), as issued by the IASB. Accordingly, certain information normally included in annual financial statements prepared in accordance with IFRS, as issued by the IASB, has been omitted or condensed. The unaudited condensed interim consolidated financial statements should be read in conjunction with the Company's annual audited consolidated financial statements for the year-ended December 31, 2014.

The Board of Directors approved the statements for issue on November 29, 2015.

### **2 Basis of presentation** (continued)

#### **Basis of measurement**

These consolidated financial statements have been prepared under the historical cost basis.

#### **Use of estimates and judgments**

The preparation of the consolidated financial statements requires the Company's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenues and expenses during the reporting period. The determination of estimates requires the exercise of judgment based on various assumptions and other factors such as historical experience and current as well as expected economic conditions. Actual results may differ from these estimates.

#### *Recoverability of resource properties*

Initial acquisition costs and exploration and development costs related to resource properties are deferred until such time as the properties are put into commercial production, sold or abandoned or management determines that the resource properties are not economically viable, at which time the resource properties are written down to their recoverable amount. Under this method, all amounts shown as resource properties represent costs incurred to date less amounts amortized, received from exploration partners and/or written down, and do not necessarily represent present or future values.

If any properties are put into commercial production, the carrying values of the properties will be depleted following the unit of production method. If any properties are sold or abandoned, or considered to be impaired in value, the carrying value of the properties will be charged to operations.

The carrying values of resource properties, on a property-by-property basis, will be reviewed by management at least annually to determine if they have become impaired. If impairment is deemed to exist, the resource properties will be written down to their recoverable amount. The ultimate recoverability of the amounts capitalized for the resource properties is dependent upon obtaining the necessary financing to complete their development and realize profitable production or proceeds from the disposition thereof.

Management's estimate of recoverability of the Company's resource properties has been based on current conditions. However, it is reasonably possible that changes could occur in the near term, which could adversely affect management's estimates and may result in future write-downs of the resource properties.

#### *Recoverability of sales tax recoverable*

Management's assumptions regarding the recoverability of Value Added Tax ("VAT") receivable in Mexico, at the end of each reporting period, is made using all relevant facts available, including past collectability, the development of VAT policies and the general economic environment of the country to determine if a write-down of the VAT is required. As the amount receivable depends on performance by the government in Mexico, the timing and amount of the VAT ultimately collectible could be materially different from the amount recorded in the consolidated financial statements. Management recorded a provision for uncollectibility of \$50,000 during the year ended December 31, 2014. If it were determined that the uncollectible amount were higher or lower than this, the net loss would increase or decrease by the same amount.

### **9 Income taxes** (continued)

#### **Losses**

The Company has Canadian non-capital tax losses of approximately \$553,000 available for carry-forward to reduce future years' taxable income. These non-capital tax losses expire as follows: \$226,000 in 2032 and \$263,000 in 2033 and \$60,000 in 2034. The Company also has, Mexican non-capital tax losses of approximately \$4,878,000 available for carry forward to reduce future years taxable income that expire as follows: \$120,000 in 2022, \$4,625,000 in 2023 and \$133,000 in 2024. No deferred tax asset has been recognized for these losses as it is not probable that the related deferred tax asset will be realized.

### **10 Related party transactions**

During the period ended September 30, 2015, the Company incurred legal fees aggregating \$2,425 (year ended December 31, 2014 - nil) from a law firm of which one of the officers is a partner.

During the year ended December 31, 2014, the Company received advances from Van Hoof Industrial Holdings Ltd. aggregating \$20,000. During the period ended September 30, 2015, the Company received advances from other shareholders aggregating \$16,500. These advances are non-interest bearing and are payable upon demand.

### **11 Supplemental cash flow information**

During the period ended September 30, 2015, the Company incurred expenditures on resource properties of \$7,499 (December 31, 2014 - nil) which were recorded as accounts payable at the end of the year. These items are non-cash transactions and have been excluded from the consolidated statements of cash flows.

### **12 Financial instruments and other**

#### **Credit risk**

The Company manages credit risk by holding its cash with high quality financial institutions in Canada, where management believes the risk of loss to be low.

#### **Liquidity risk**

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions. The Company does not have sufficient working capital to carry out all budgeted programs in 2015 and must secure financing during 2015 to avoid disruption in planned expenditures (see note 1).

(expressed in Canadian dollars)

### 12 Financial instruments and other (continued)

#### Market risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and commodity and equity prices.

a) Interest rate risk

The Company has no interest-bearing debt and is not exposed to any significant interest rate risk.

b) Foreign currency risk

The Company operates in Mexico, giving rise to foreign currency risk. To limit the Company's exposure to this risk, cash is primarily held with high quality financial institutions in Canada. In the future, based on the timing of the Company's exploration programs, foreign currencies may be purchased in advance of expenditures to lock in favourable rates in line with the Company's budgets, otherwise the Company does not use any form of hedging against fluctuations in foreign exchange.

As at September 30, 2015 and December 31, 2014, the Company held the following items in foreign currencies:

	September 30, 2015		December 31, 2014	
	USD	Pesos	USD	Pesos
	\$	\$	\$	\$
Cash and cash equivalents	—	—	—	6,713
Sales tax recoverable	—	602,413	—	602,413
Accounts payable and accrued liabilities	25,367	545,773	25,425	434,529

#### Price risk

The Company is not exposed to any direct price risk other than that associated with commodities and how fluctuations impact companies in the mineral exploration and mining industries as the Company has no significant revenues.

### 13 Subsequent event – proposed sale of Mexican subsidiary

Subsequent to September 30, 2015 the Company entered into a binding letter of agreement with an arm's-length purchaser whereby it has agreed to sell the shares of its Mexican subsidiary company, Compania Minera Oso Blanco SA de CV (CMOB), to the purchaser. The binding letter of agreement provides that upon closing, the purchaser will be responsible for all of CMOB's liabilities and that CMOB will grant to NSX Silver a 2-per-cent net smelter return royalty on any future mineral production from the 11 mining concessions that CMOB presently owns.

As the proposed sale of CMOB constitutes a sale or exchange of all or substantially all the assets of NSX Silver, NSX Silver shareholder approval for the sale will be required under Section 189 of the Canada Business Corporations Act by way of special resolution. To approve a special resolution, a majority of not less than two-thirds of the votes cast in person or by proxy by those shareholders who vote in respect of the special resolution is required. The special meeting of NSX Silver shareholders will be held on December 16, 2015. The proposed sale is also subject to the approval of the TSX Venture Exchange.

#### **13 Subsequent event – proposed sale of Mexican subsidiary** (continued)

Assuming that the sale transaction is approved at the special meeting and subsequently completed according to the terms, NSX Silver will not have any ongoing business operations. The Board of Directors of NSX Silver intends to explore potential strategic alternatives following the closing of the proposed transaction. There can be no assurance that such exploration of strategic alternatives will result in a transaction being pursued, entered into or consummated.
